OLATUNDE [SURNAME]
Frontend Developer
olatundeafolayan419@gmail.com | 09162997567

PROFILE

Frontend developer who builds clean, responsive interfaces with HTML, CSS/Sass, JavaScript and React. Contributes to the NACOS OAU website in a team using Git, pull requests and Linear tickets. Also experienced in AI evaluation, with a strong eye for design.

TECHNICAL SKILLS

• **Languages:** HTML, CSS, Sass, JavaScript
• **Libraries and frameworks:** React, Tailwind CSS, React Query, Axios, Leaflet • **Tools:** Git, GitHub, Vercel, Parcel, Figma, Canva
• **AI tools:** Claude, ChatGPT, Gemini, GitHub Copilot, Lovable

EXPERIENCE

Frontend Developer, NACOS OAU Website
Nigerian Association of Computing Students, Obafemi Awolowo University • Built reusable UI components (Marquee, Steps, AchievementItem) and a Tiptap-based Markdown editor in a TypeScript codebase.
• Developed the aspirants and legislature pages and connected them to live backend APIs using a custom hook, React Query and Axios.
• Built admin announcement and newsletter pages, an aggregate score calculator, admission steps and a contact section.
• Worked with backend developers and a team lead through Linear tickets, GitHub pull requests and code review; deployed on Vercel.

PROJECTS

. • **Forkify Recipe App:** JavaScript and SCSS app built with Parcel using the MVC pattern (controller, model, views).

• **Mapty Workout Tracker:** class-based JavaScript app using Leaflet and OpenStreetMap, with form validation, map markers and popups.

• **Guess Who I Am:** deployed browser game built with HTML, Tailwind CSS and JavaScript.

• **Travel-list:** Travel List App: Deployed interactive React web application

featuring real-time state management, list sorting algorithms, and progress

tracking; built with React, JavaScript, CSS, and Vercel.

• **Fast React Pizza Web App:** Deployed full-stack frontend pizza ordering application featuring API menu fetching, global cart state management, geolocation address fill, and dynamic order tracking; built with React, React Router, and Tailwind CSS
